

DENSETEC® OCEANBOUND

DENSETEC OCEANBOUND - HIGH DENSITY POLYETHYLENE

OceanBound plastics recycled into sustainable products to reduce ocean pollution.

Recycling at-risk plastic before it makes it to the water streams and oceans helps our environment. It is the right thing to do for a sustainable future. That's the concept driving our Densetec® OceanBound plastics. We use material at-risk of becoming ocean pollution and give it a future. Polymer Industries offers solutions that transform oceanbound waste into resources to benefit our customers and communities.

By focusing on the future of the environment, we are able to create a versatile product for essentially any application where HDPE is preferred and make a tremendous impact on the planet. It is an excellent replacement for wood, and because the color is embedded in the sheet, it never needs painting and is also vandal resistant. Every pound of Densetec® OceanBound plastics is potential pollution transformed into a recyclable resource.

Densetec Marine

APPLICATIONS

- Playground
- Cabinets
- Marine
- Furniture
- Shelving
- Benches
- Table Tops
- Countertops
- Partition
- Display

KEY FEATURES

- Sustainability
- Stain resistant
- Easily cleaned
- Graffiti resistant
- Resists scratches
- Easily fabricated
- Can be UV stabilized
- Does not delaminate
- Never needs painting
- Will not crack, chip, swell or rot

Densetec Play

SIZES

Extruded Sheet
 inch/mm

Thickness	0.25 - 1 / 6 - 25
Size	48 X 96 / 1220 X 2440 48 X 120 / 1220 X 3050
